Technical data:

Product Code: Z38

Technical data	
Testing Items	Value
Backing	BOPP Films
Film Thickness	23 microns
Adhesive	Water based
Adhesive Thickness	15 microns
Tape Thickness	38 microns
Adhesive to Steel	4.5N/25mm
Temperature	0 °C - 40 °C
Lab Test method	GB-T

Applications:

BOPP film is coated with various thickness of water based acrylic adhesive to meet different weight requirements. It provides immediate adhesion, idea for light, medium or heavy weight purpose packing or sealing.

Available Colours:

TAN , CLEAR

Available Size:

Width: 11mm--1320mm

Length: up to 1500m

Jumbo roll up 4000m.

Note: the above technical data is obtained from tests does not represent a guarantee of product performance, Individual rolls may vary slightly from these averages.
