

Technical Data Sheet

Product No. : RFT075B200

Category: 75um BLUE_PET_FILM

Product Description: 75µm, Blue PET release film; release force: 170 ~ 220 gf/25mm;

Structure: Section Diagram shown as follows ▼

Typical Physical Properties and Performance Characteristics

Main items / Subitems		Specifications / Values
Carrier type or Base material		75 µm PET
Appearance / Color		Blue
Single roll finish product available dimensional value	Thickness(µm)	75 ± 5
	Width(mm)	1000 or 1090 ±5
	Length(M)	500 ~ 4000 ±5
Main Characteristics	adhesion force (gf/in) (GB/T 2792-2014, Test condition: 23°C, 50%RH ,20min,300mm/min,180° peeling)	170 - 220 (gf/in)
	Tensile strength(Mpa) MD	>= 150
	Tensile strength(Mpa) TD	>= 180
Storage Condition	stored in original cartons at 70°F (21°C) and 50% relative humidity	
Period Of Validity	6 months from date of delivery	

Remarks:

All statements, technical information, and recommendations related to this products are based on information believed to be reliable, but the accuracy or completeness is not absolutely guaranteed. Before using this product, user must evaluate it and determine if it is suitable for user intended application.

The data contained in this publication are based on our current knowledge and experience. The above data is the average value of multiple tests conducted in accordance with the national standard, and is only used as a reference for product properties, not as a absolute specification value for inspection. This information may be subject to revision without informing in advance as new knowledge and experience become available. Because use conditions and applicable laws may differ from one location to another and may change with time
